

Business Opportunity

LISMORE STORES and POST OFFICE

LISMORE STORES and POST OFFICE, on the delightful Inner Hebridean Island of Lismore, Argyll, needs a new proprietor! Offering a completely different kind of retail experience, this opportunity would be ideal for an energetic couple seeking a rural lifestyle, fully integrated into the island community.

Situated near the centre of the island, the Stores is the only Shop, Post Office and off License on the Island. It acts as a Community Hub.

With a wide range of stock, built up over many years of local trading, the Stores offers potential for new ideas and adjustments to suit changing conditions.

THE OPPORTUNITY

With a number of houses available for rental or purchase on Lismore at present, taking up the business of Lismore Stores could provide a rare opportunity for a lifestyle change – or perhaps a change from an existing retail occupation to one in a very special corner of Scotland. The opportunity has risen as the present proprietors have decided to wind down towards a well-earned retirement after 25 years, having happily brought up their children in the community, and enjoyed being at the heart of things.

As the Island adapts to the next phase of challenges, Lismore Stores can be at the heart of ensuring that the community can remain resilient and vibrant.

LISMORE

The Island of Lismore lies in Argyll at the foot of the Great Glen, in Loch Linnhe, accessible by regular ferries from Oban (vehicle), and from Port Appin (pedestrian). Low, undulating green pastures offer varied and ever-changing vistas of the mountains across the narrow stretches of the sea. The island is rich in history and its limestone soils make it fertile and of interest for flora and fauna.

Lismore has a Primary School, Public Hall, Heritage Centre, Church and a variety of holiday accommodation – all of which are within easy striking distance from the Stores. Economic activity includes farming - the predominant land use - local services, some commuting off the island, and local business enterprises.

There is a vibrant community life, with numerous formal and informal groups, and shared social occasions throughout the year.
